TO EXTEND OUR COMMERCE.

"American Floating Exposition" Will Sail Around the World.

New York, July 27.—Plans have completed for an effort by an exting company of this city to extend erican commerce to foreign countries. A floating exposition will be shipped and sent on a tour of the world. The "American Floating Exposition" as it will be called, will start from New York in January, 1906. It will carry a limited number of samples of various merchandise of American manufacture, the samples to be displayed at each of the ports where sales will be made. Space will be rented to exhibitors and salesmen on the ship.

The trip will require 15 months and over 60,000 miles will be covered. It will include Europe, Asia,, Australia, South America an dports in Central America and the West Indies. The steamer will carry a surgeon and competent interpreters of German, French and Spanish.

Two Swimmers Are Drowned.

Anniston, Ala., July 27.—The little city of Oxford was thrown into gloom on receipt of the news from a camping party at Whitesides mill, near Choccoloco, that two members of the party, Walker Wakefield and James Wright, had been drowned while swimming this afternoon. It is thought that one of the young men was stricken with cramps, and in an effort to save the other, both were

REFORMATORY BILL INTRODUCED

Solons Would Care for Youthful Criminals—Other Legislative News.

Atlanta, July 27.—The Felder reformatory bill, under which it is proposed to establish a state reformatory for youthful criminals, occupied the attention of the house Tuesday, and was debated at some length, but owing to the fact that the hour of adjournment was near at hand, and action on the bill at the day's session would be impossible, the house adjourned and the measure will come up today as unfinished business.

The sentiment of the house is generally favorable to this measure, as was shown by the debate and the questions asked of the speakers. There appears to be little doubt about the passage of the measure, and in pretty much the same shape as was reported by the committee.

The proposed new county of "Milledge," to be formed from parts of Emanuel, Johnson, Montgomery and Laurens counties, was given a hearing Tuesday afternoon before the house and senate committees on new counties. It is proposed to make Adrian, now in Emanuel, the county seat of the new county.

In the Senate.

At the thirty minutes' ssession of the senate little business was transacted.

The house has not transmitted to the senate a single general bill of importance, consequently the sessions of the latter body are short.

Upon the report of the general judiciary committee yesterday the two bills introduced by Senator Mills several days ago, one affecting insurance companies, providing that the cash value of life insurance policies be taxed, and another providing for garnishment of wages, were both killed by the senate.

The report of the committee upon both bills was adverse to their passage.

RELIEVED SHERIFF OF PRISONER

Negro Taken from Officer by Mob and Lynched.

Glendora, Miss., July 27.—A mob of 50 men took Will Harris, a negro, from a Yazoo and Mississippi Valley train at Black Bayou and hanged him to a tree about a quarter of a mile from the railroad.

Harris and his brother Henry shot and seriously wounded two white men, Barksdale and Allen, respecively, on the James plantation, near Sharkey, July 19. A posse pursued the negroes, and in attempting to arrest them shot and killed Henry Harris.

The other brother escaped, but was arrested last night at Heathman. This morning the prisoner was taken to Greenwood and later placed aboard a train and was being coveyed to a point on Tallahatchie county, where he was to be turned over to the sheriff, when the mob boarded the train and secured him.

Little difficult was experienced in taking the negro from his custodian, and Harris was quickly conveyed to a prearranged spot and lynched.

Riksdag Held Secret Session.

Stockholm, Sweden, July 27.—Both houses of the Riksdag have held secret sessions to discuss the report presented yesterday of the special committee appointed by the riksdag to deal with the crisis between Norway and Sweden. It is understood that the report was approved in principle. Some regret is expressed at the resignation of the Swedish government before the riksdag has acted on the committe's report as it is feared it may impede the progress toward a solution of the difficulties between Sweden and Norway.

President Alexander Resigns.

New York, July 27.—At a two hours' session of the directors of the Equitable Life Assurance society today the resignation of former President James W. Alexander and Nevada N. Stranahan, as directors were accepted. Paul Morton was elected president of the society, retaining, it is said, the chairmanship as well. A special meeting of the directors will be held tomorrow, at which additional directors

NEW CROP REPORT -HAS BEEN ISSUED

Shows A Decrease In Acreage Of Fourteen Per Cent.

PRICE OF COTTON GOES UPWARD

The Government Report Previously Issued Showed a Decrease of Only 11.4 Per Cent—Much Excitement Shown on Exchanges.

Washington, July 27.—Assistant Secretary Hayes today made public the followoing report to Secretary Wilson on the acreage of cotton in the southern states in 1905, compared with that planted in 1904:

"The crop estimating board of the department of agriculture has considered the report issued by the bureau of statistics on June 2, relative to the acreage planted in cotton in the southern staes in 1905, as compared wih that planted in 1904, and has concluded:

"First, that a new estimate should be made on acreage planted, and that the figures in Mr. Hyde's hands when making his estimate should be used as the basis.

"Second, That Mr. Hyde with Mr. Holmes at his elbow prompting him, made the estimate lower than the facts at his hand from the reports from the seven classes of reporters employed by the bureau warranted.

"Third, That the board finds, upon careful consideration of the reports of all classes of correspondents and the agents that the acreage planted in cotton this year including the entire season, should have been estimated at 85.1 per cent of that planted last year, equivalent to a reduction in planted acreage as compared with the last year of 14.9 per cent (instead of 11.4 per cent) or 4,731,000 acres—the estimate of the total acreage planted this year being 26,999,000 acres.

"The above estimated percentage of the decrease in each of the cotton-growing states is as follows:

"Virginia, 18; North Carolina, 16; South Carolina, 14; Georgia, 14; Florida, 12; Alabama, 11; Mississippi, 16; Louisiana, 17; Texas, 16; Arkansas, 19; Tennessee, 13; Missouri, 15; Oklahoma, 15; Indian Territory, 11.

"The averages were made for each state by each of the four members of the board and the comparatively small disagreements were harmonized almost wholly by averaging, and the above results are fully agreed to by each and every member of the board. Respectfully submmited, Victor Olmstead, Stephen D. Fessenden, George K. Holmes, W. W. Long, crop estimating board.

"The above findings and report made under my supervision have my entire approval. W. M. Hayes, assistant secretary in charge bureau of statistics. Approved: James W. Wilson, secretary of agriculture."

New Orleans Market.

New Orleans, July 27.—The day was one of unusual excitement in the cotton market owing to the fact that the revised government acreage report was made at 11 o'clock. This showed the reduction of acreage to be 14.9 per cent compared with the previous figures given out on June 3, now declared to have been manipulated of 11.4, or a further decrease of 3.5 per cent. The market was put up about 15 points immediately after the reading of the report and many bears turned bull, for the trading during the remainder of the day. Prices at 11:30 thirty minutes after the reading of the report, however, were but 2 and 3 points above yesterday's closing.

New York Exchange.

New York, July 27.—Prices for cotton bounded upward almost instantly today when the government report of a decrease of 14.9 in the acreage planted, as compared with last year, was received on the exchange. The gains ranged from 12 to 14 points, October reaching 11.17. Tremendous selling was presumably by large long interests to realize profits. Later there was a reaction of 20 points from the highest to 11.02. The market was excited and irregular.

JAPANESE SEE THE PRESIDENT

Minister Takahira Visits Sagamore Hill on Official Business.

Oyster Bay, L. I., July 27.—Minister Kogoro Takahira, of Japan, one of the Japanese envoys of the forthcoming peace conference was a guest of the president a part of today. This was Minister Takahira's second visit to Sagamore Hill, within two weeks. His visit today related to the peace negotiations. Minister Takahira was met at the station by one of the president's carriages sent to convey him to Sagamore Hill. The minister said that his mission to the president at this time concerns the peace negotiations, but that it would be impossible for him to discuss the matter for publication.

Baron Komura, the Japanese peace envoy, probably will pay an informal visit to President Roosevelt next Friday. The details of the visit have not yet been arranged. In the meantime the baron is resting at his hotel occasionally discussing his mission with the other members of the delegation. He rose earlier than his colleagues today and before any of the others had appeared for breakfast he went for a long walk.

RATE ON SUGAR REDUCED.

Freight From Pacific Coast Cut From 32c to 10c a Hundred.

San Francisco, Cal., July 27.—The Southern Pacific and the Santa Fe companies formally announced a reduction in the rate of refined sugar between this city and the Missouri river and points in Kansas ad Nebraska from 50 cets to 28 cents a hundred pounds, in car load lots. The cut has been made to meet a cut made by the lines operating between New Orleans and the same points mentioned above and for the purpose of placing California refiners on an equal footing with southern competitors. Recently the lines operating out of New Orleans, among them the Illinois Central, the 'Frisco and several subsidiary lines of the Southern Pacific, dissolved their agreement relative to sugar rates and entered upon a war that ended a few days ago in the rate being cut from 32 cents to 10 cents a hundred pounds.

As a result of the California refiners found themselves seriously handicapped in their business and finally appealed for relief to the lines running out of this city with the result that the cu was made. The reducion, the railroad officials claim, brings the eastbound rate down to the lowest point in the history of western refining.

THREE KILLED IN WRECK.

Freight Train Jumped the Track—Two Others Injured.

Atlanta, July 27.—A freight train wreck on the Central railroad in Oakland City, near here, at 11:45 o'clock this morning, resulted in the death of three white men and a negro.

The dead are:

John Woodruff, conductor.

Horace McGhee, train hand.

"Uncle" Green, negro fireman.

Fred Woodall, yard master of the Central, is fatally injured.

Sam Farris, engineer, was terribly scalded with hot water and steam, but will recover.

All four of the bodies are under the wreck.

The train which jumped the track was made up as a switch engine, to which were attached a large number of cars. When just in front of Tucker's store at Oakland City the engine jumped the track. It ran for about 100 yards before it stopped, badly demolished.

Inspecting Convict Camps.

Columbus, Ga., July 27.—A state inspector has just paid and official visitation to the camp of the Muscogee county chaingang. He found the camp clean and neatly kept, with a regard for sanitary regulations, and the convicts in good physical condition, the result of the wholesome diet and good treatment given them. Inspectors who visit this camp term it one of

THIRTY-SIX VICTIMS OF YELLOW FEVER

This Is the Number of Deaths To Date In New Orleans.

BUSINESS NOT MUCH AFFECTED

New Detention Camps Are Being Located and Every Effort Is Being Used to Stamp Out Disease—Excitement at Memphis, Tenn.

New Orleans, July 27.—Additional deaths from yellow fever were officially reported to the city board of health today, making 36 in all since July 13. No reports of new cases were received. The city board has decided to make one daily report to the state board, in the evening of cases and deaths.

The reports of cases to date made to the city board indicate a slow spread of the fever.

There are now 14 foci, one of them at Bunkie, in north Louisiana, of an Italian escape from the French market station. His case was fatal.

There are three foci above Canal street and one in Algiers. These cases have all been directly traced to the French market vicinity and up to this morning there were no reports of cases traceable to the outlying infection.

The bulk of the 36 deaths have been very bad and large families of Italians have been found crowded in very small spaces.

In one instance 27 people were found living in three rooms. The congested conditions in this neighborhood were resposible for the rapid development of the fever. In every instance of a new focus outside this district the health authorities have applied the methods that were successful in Cuba, and the fact that cases are not spreading to surrounding houses encourages the belief that screening and destruction of the stegomia will greatly restrict the disease.

In 1878 when there was a fever epidemic here and old methods of treatment, whole neighborhoods became almost instantly affected.

There has been no serious effect on business here due to the fact that none ofthe surrounding states has taken steps to prohibit the movement of freight. There was a report that Florida would put on a commercial quarantine, but it has not been confirmed.

The Marine hospital service has rented offices in one of the most prominent office buildings, and Surgeon White will control the detention camps ad the work of his service in the city therefrom.

The British steamer Anselm has arrived here four days out from Belize, whence the fever is thought to have first come into New Orleans. Her arrival will probably put into immediate effect the rules for increased detention of ships from infected ports of which there are a number on the way.

Excitementin Memphis.

Memphis, Tenn., July 27.—Charged with circulating sensational rumors as to the existence of yellow fever in Memphis, O. C. Riser, a South Main street merchant, I. Detto, a negro preacher, and essie Harrison, a negro were arrested today by sanitary officer. The offense is a misdemeanor under the miunicpal statutes. The men claimed they referred to the fever prevailing in New Orleans.

The president of the board of health announces that the city was never in better sanitary condition ad the police have bee instructed to arrest any person spreading libelous reports about the health of Memphis.

New Police Chief for Chicago

Chicago, July 27.—Mayor Dunne today appointed Captain John M. Collins as chief of police of the city of Chicago. Collins succeeds Francis O'Neill, who resigned a few days ago. The new chief has risen from the ranks. He was a patrolman in the town line of police at whom the as

Brought There From New Orleans By An Italian.

DR. PORTER NOW ON THE SCENE

A Vigorous Effort Will Be Made to Prevent Its Spread—Hopeful That No Other Cases May Come Up—West Tampa a Suburban Town.

Special to The Daily Sun.

Jacksonville, July 27.—Dr. J. Y. Porter, State health officer, announces that the Italian at Tampa, who arrived there a few days ago and had symptoms of the yellow fever, has the disease.

He is in West Tampa and a cordon of guards has been placed about the district.

Dr. Porter is hopeful that there will be no other case.

West Tampa is about two and a half miles from the city proper and on the opposite side of the Hillsborough river, being connected by a bridge. There are many Italians residing there and the sanitary conditions are not of the best.

Yellow Fever at New Orleans.

New Orleans, July 27.—Six new cases were reported today and only two deaths. Total deaths to date 44.

ALACHUA HAPPENINGS.

Fight Between Two Prominent Citizens—Notes of Personal Interest.

Alachua, July 27.—Miss Hattie Fowler has returned to Lake Butler.

C. A. Williams, after spending a month in Northern markets, returned Monday.

Miss Trixie Rives is back from South Carolina.

W. T. Robarts is back after a month's vacation.

Miss Mamie Stork has returned from a visit to Reddick.

Miss Daisy Cato of Newberry is visiting relatives at this place.

The shade trees on the streets have been trimmed up, which helps the looks of things.

Dr. R. A. Caswell and J C. Etheridge were the defendants before Mayor L. N. Pearce Wednesday at 2 o'clock charged with fighting. Both plead guilty, but Dr. Caswell withdrew his charge and two witnesses were secured. Both defendants were found guilty and Dr. Caswell fined $5 and costs of court, and Mr. Etheridge was fined $5. It was an exciting time for our borg, and the mayor's court was well attended.

The poles for the telephone line have nearly all been put in place, and it will only be a short time when we can "Hello" with our neighbors.

Crop reports are good. Some cotton is opening and it is predicted that several bales will be ginned here by August.

T. W. Thomas, one of the county's most substantial farmers, has moved his family to Southerland. Their many friends here expect to lose them, but wish them well in their new home.

Made Remarkable Time.

J. W. Patton, the surveyor, on Wednesday made a remarkable day's trip with his pair of ponies, especially when the temperature is considered.

Mr. Patton had been engaged to locate and survey some land near Lochloosa. He left this city early in the morning, driving in a round-about way to Lochloosa, inspected the land, comprising a thousand acres, and returned, reaching home shortly before midnight, after covering a distance of about sixty miles.

Mr. Patton is proud of his spanking little team, as he has a right to be.

North Gainesville Deal.

J. B. Crawford and W. H. Palmer, it is understood, have purchased what is known as the tobacco farm in North Gainesville. The tract comprises two acres, more or less, and is among the most desirable property in that thriving suburb.

It has not been learned what the new owners propose to do, but it is supposed that they will erect several cottages, the demand for houses in North Gainesville being great.

J. H. Manners, representing the International Harvesting Machine Company, Chicago, made a business trip to Spring Park Farm, Bennington, yesterday.

Blue Ribbon lemon and vanilla extracts will give your desserts the famous "Blue Ribbon flavor" which is different from all other flavors. Ask your grocer for Blue Ribbon lemon and vanilla. Takes less. Flavors perfectly.

J. A. Maultsby, the brick manufacturer of Campville, was among those who came to Gainesville on business yesterday. Mr. Maultsby conducts one of the largest brick manufacturing establishments in the State, and says he is keeping a large force busy.

W. Adams of Windsor was a visitor to this city yesterday, having come on a trading expedition. Mr. Adams, notwithstanding his success, which he has enjoyed for many years, is not quite satisfied, and desires to dispose of his interests and remove to South Florida. Anyone desiring to locate in a first-class country might do well to correspond with him.

J. H. Rollins of Rochelle was in the city yesterday. Mr. Rollins is one of the old residents of that section, and has many friends who are always glad to accept his hospitalities, for he is one of the most hospitable and entertaining men at his home, or anywhere else for that matter, who was ever known. He has been in ill health for the past few years, but friends are glad that he is yet able to "be about" and visit the city once in a while.

W. E. Webb, formerly salesman at the store of Jacob Endel, but who for the past few weeks has been working in Tampa, was so well pleased with Gainesville that he could not resist the temptation to return, and after today he may be found at the store of Chitty & Co. Mr. Webb is not only a fine gentleman of the Georgia type, but a good salesman as well, and the Messrs. Chitty are to be congratulated upon securing his services.

Masonic Work at Williston.

Several members of the Gainesville lodge of Masons went Thursday to Williston, where they conferred special work in the various degrees. The reputation of the working team of the Gainesville lodge has caused that team to be in demand, with the result that within the past few months there have been extended numerous invitations from every section of the State to come and participate in the initiations.

Among those who went to Williston were W. B. Higdon, A. M. Cushman, J. H. Coffee and Marcus Endel, all of whom are Masons well read and competent to give the work in the proper style.

The visiting members were treated well, and they will not soon forget their trip to Williston.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1. Sold by W. M. Johnson.

In the Mayor's Court.

In the mayor's court Thursday morning Chas. Mason was arraigned for discharging firearms in the city limits. Mason felt very much grieved at having been placed in this position, stating that inasmuch as he was in the "suburb" of the city he did not think it improper, to try a mark on a tree. He was admonished by the mayor for his indiscretion and fined $5 and costs, which was paid and the defendant released.

NEWS FROM WALDO.

TIMELY ADVICE OF THE HEALTH OFFICER

Warning to Property Owners and Householders About Mosquitoes.

PAY ATTENTION TO SANITATION

How to Prevent the Breeding of Mosquitoes—The Pantry and Refrigerator Should Be Looked After—Ripe Fruits Are Healthy—Milk Easily Tainted.

Dr Joseph Y. Porter, State health officer, has issued an address to the people of Florida, from which we quote the following prominent points:

The summer months embrace a period of the year when, through atmospheric changes and elevated temperature, fermentation and putrefaction occurs rapidly and is likely to produce sickness of many kinds. It should, therefore, be the care of all householders to keep their premises clean and clear of any fermentative trash and filth.

Keep the premises clean inside and outside the home; ventilate the house and let in sunlight and fresh air; bathe daily or bi-daily; persons who perspire freely should change under garments frequently.

Disinfect the water-closets and air clothes closets.

The refrigerator and pantry should be kept sweet and clean, and prohibit keeping fish, fruit and vegetables in the same compartment. Milk easily absorbs odors and should be kept in tightly closed rubber-gasket bottles or dishes and on ice. Condensed milk is safer for bottle-fed babies.

Ripe fruits are healthy in summer and but few disagree with old or young. Shun articles of fruit, fish, meat or vegetables which tax the digestive organs. Don't overeat. Nature does not require as strong diet in summer as in winter. Fruit and vegetables will keep the bowel function in order without purgation from many of the nostrums offered.

It is no longer a theory or a "fad" of some "crank" doctors that certain mosquitoes carry disease by acting as intermediary hosts to the human being. Mosquitoes of the genus Anopheles (which means vagrant or worthless) do convey, when infected, the malarial parasite to the human. This has been proven beyond any shadow of doubt, as has also the fact that the Stegomyia genus of mosquito conveys, when infected, the germ—perhaps parasite—of yellow fever; in the same manner dengue is thought to be conveyed by the genus Fatigans, and it has not, as yet, been determined how many more of these same kinds and description of fevers may not, although now unknown, be conveyed to the human through the mosquito acting as a means of transmission.

These scientific facts should not be poo-pooed or ignored by the people. They are not only worthy of thought, but of deliberate and careful heeding. A single female mosquito will lay a sufficient number of eggs in a water pitcher in an unused bedroom to not only fill the house with her offspring, but supply the neighbors within the radius of the square.

Standing water of any kind, in the yard or house, in house plants, saucers or receptacles, whether fresh or brackish, will afford the female mosquito an opportunity to propagate her species, for she must have water to lay her eggs in or upon. No water, no mosquitoes, may therefore be accepted as an axiom. By looking after these details the mosquito pest will be considerably lessened, and particularly in that portion of the State where artesian wells are plentiful and rain water is not required for portable purposes.

Cisterns and tubs required to store rain water should be screened with 16-to-the-inch wire gauze to prevent the female mosquito from depositing eggs, and a teaspoonful of kerosene oil to 30 square feet of water will prevent hatching of any which might be in the water, as the oil will kill the "wiggle" when he comes to the surface.

Attention to mosquito prevention and destruction will lessen and in time effectually rid a community of malarial reputation. So, too, will a hindering of mosquitoes prevent yellow fever from spreading, where the particular species of mosquitoes which convey yellow fever exist and are abundant. No one should sleep, and particularly at night, where mosquitoes exist, never mind of what species, without a net, and care should be taken to see that no mosquitoes have gotten into the net after it has been lowered about the bed.

The malarial mosquito and the yellow fever mosquito do the work of infection after 5 o'clock in the afternoon, and before daylight the next morning; in other words, during the hours of darkness and semi-darkness. If this fact is remembered and a little care taken, never mind what the alluvial conditions may be or what the miasm, an escape can be had from malarial infection or from yellow fever infection if attention is paid to mosquito generation, in preventing their breeding, when individuals happen in a country or community where these two diseases may be prevailing.

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women *are* nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M. Johnson.

FRANKLAND SELLS OUT.

E. D. Camp & Co. Buy Mines and Will Continue the Business.

B. F. Fontaine of Micanopy was in the city Thurday. Mr. Fontaine, who is connected with E. D. Camp & Co., phosphate miners and buyers, states that the Camp Company has recently purchased the mine of the Frankland Phosphate Company at Frankland, and will continue to operate same. This is the first mine of the Camp Company, who have heretofore been in the buying and brokerage business, but the company has engaged a full force, and will hereafter conduct this and other mines.

The Frankland phosphate plant, while small, is one of the most profitable in the belt, when it comes to turning out rock. It is a one-log plant, but can produce from thirty-five to forty tons a day, when worked on full time.

E. D. Camp & Co. have already made themselves felt in Alachua county, and expect within a short time to be recognized as among the most profitable miners, buyers and shippers of phosphate in the country.

DEATH OF MR. GODWIN.

A Good Man Passes Away After Illness of Several Weeks.

J. J. Godwin of Rex, one of the oldest and most prominent and most generous-hearted residents of the East End, died at his home Thursday, after an illness of several weeks of nervous prostration.

Deceased was born in Bradford county about forty-eight years ago. He moved to Alachua county, settling at Rex, in 1885. In 1888 he married Miss Katie Thomas. She died, and in 1896 Mr. Godwin was married to Miss Minnie Blitch of Santa Fe, daughter of W. M. Blitch, and they have lived happily together ever since.

Mr. Godwin was a member of the Baptist church, and has been a faithful worker in both the Hawthorn and Rex churches. At one time he was superintendent of the Baptist Sabbath school at Hawthorn. He was for nineteen years engaged in teaching school, and was the founder of the famous Godwin Seminary at Rex, one of the best regulated and most successful schools in the county.

Deceased is survived by a wife and six children—Sydney and Winona by his first wife, and Arthur, Ernest, Jewel and Gladys by his last, to whom the sympathy of friends is extended.

The funeral will be held this morning, and the interment will be in the Melrose cemetery, where his first wife and departed child are buried.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W. McCollum & Co.

MUST HAVE THE SUN.

Gainesville's Former Fire Chief Deeply Interested in City.

A. J. McArthur, former chief of the fire department of Gainesville, but now residing at Collins, Ga., where he is superintendent of the Pine Products Co., writes the editor of The Sun under date of July 26th as follows:

"We can't live without The Sun. Please find enclosed one dollar. Send us that much worth of 'Twice-a-Week' Sunshine.

"I congratulate Gainesville and all her hard working citizens for her great victory in getting the State University. The Gainesville people always were a hard-headed l[illegible] when they set out to do anythi[illegible] they generally get there. There [illegible] one thing I am sorry for, and that is that I wasn't in the fight.

"We are living the 'Simple Life' up here in Collins, but we think of you all very often and wish you all manner of success."

Forced to Starve.

B. F. Leek of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At all drug stores; only 25c.

An Enjoyable Outing.

Thursday about a dozen enthusiasts of Isaac Walton hied themselves away to Alachua Sink, where they enjoyed a fine chowder and fish fry. Judge J. A. Carlisle, who is regarded as one of the finest chowder makers the country has ever produced, presided at the "chowder bowl," which was an assurance that everything handed out was up to the minute.

The party returned to the city late in the afternoon, tired, but with the consolation that they had spent an enjoyable day.

A number went out by train and partook of dinner at the invitation of the party.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

The Baptist church at Umatilla is without a pastor.

A lodge of Beavers is soon to be organized at Pensacola.

There will be a big Sunday school rally at Blichton on Sunday, July 30th.

The colored Odd Fellows will hold a picnic at Orlando next Monday, July 31st.

Jacksonville will clear the city of weeds and also try to rid the town of mosquitoes.

The Masons and Knights of Pythias of Mayo will put up an $8,000 building for a lodge room.

Quincy wants better passenger and freight service at the hands of the Seaboard Air Line Railway.

Lemon City young folks enjoyed a shirtwaist dance. The dancers would be quite comfortable at least.

A British schooner unloaded a thousand cocoanuts at Pensacola a few days ago. They came from Honduras.

T. J. Shaw has purchased 14,000 acres of timber land near Eau Gallie and will operate a turpentine still there.

Getson Mosby, colored, was bound over to await the action of the Levy county grand jury at Bronson Monday. He killed Andrew Willison.

The News of Cocoa says there is no reason why that locality should not produce grapes in abundance. The same might be said of many localities in Florida.

Henry Shaw shot Ed Massendale at the Yulee Turpentine Company's still in Nassau county on the 24th. The coroner's jury returned a verdict of wilful murder.

F. H. Hafer, a prominent citizen and real estate dealer of Palatka, was stricken with paralysis Monday and he is in a helpless condition. It is his second stroke.

The law firm of Cubberly & Willis of Bronson have recently concluded a land deal with the Joseph Dixon Crucible Company for 1,200 acres of the John A. Graham lands situated in Levy county.

Two young men, Pharrs L. Swartley, aged 22, and Frank Dockstader, aged 18, both of Green Cove Springs, have started on a bicycle trip across the continent, Portland, Oregon, being their destination.

Mrs. Ernest Amos of Milton mistook her mother for a burglar during the thunder storm Monday night and shot her in the hip. Mrs. Potter had entered her daughter's room to close the window. The wound is not serious.

Jacksonville people are bound to be strictly in it when it comes to sensations. A lady from that city went to a Georgia resort, and in order to come before her guests more prominently, missed her jewels. They were afterwards found and the usual happy denouement was the result.

Now let no time be lost in getting the University started. The State has undertaken a hefty job. The future depends on how the foundation is builded. Let our State University rise and rest on a foundation that is solid—as regards the moral strength of the institution, as well as the material structure—The Monticello News.

Further restrictions on passenger traffic from New Orleans to Pensacola, on account of the prevalence there of yellow fever, have been issued by Dr. Joseph Y. Porter, State health officer, and additional inspectors placed on duty. When quarantine was first declared it was only against that section of the city known here as the Italian quarter, but now it includes the entire city and no passengers or baggage will be allowed to enter the county. Dr. Porter will take charge of the situation.

Death Claims Another Victim.

Sandiego, Cal., July 27.—Another death among the injured of the Bennington's crew has ocurred, the victim being W. V. Kennedy. The body will be taken to Alliance, Neb., where the deceased formerly lived. The investigation of the disaster is being conducted by Commander Young and Lieutenants Yates and Wade and has been concluded, but the report has been forwarded to Washington. Nothing can be learned as to its contents from the three officers, but there is reason to believe that they have coincided on the explosion of one boiler, releasing the steam which wrought such havoc.

Two Treasurers In Kansas.

Topeka, Kans., July 27.—State Treasurer T. T. Kelly has filed with the secretary of state $881,000 of personal bonds. The amount of bond required from Kelly by the governor, and which he could not secure from the bonding companies was $750,000. The state executive council will meet tomorrow morning when Kelly's bond will be considered along with that of S. W. Moore, who is thought to have been appointed treasurer by Governor Hoch. The chances are that the state will have two treasurers after tomorrow, and the courts will have to decide which is entitled to the office.

Savannahans May Withdraw Suit.

Savannah, Ga., July 27.—There will be a meeting of the chamber of commerce committee and the hardware dealers of the city Wednesday to determine whether or not to withdraw the injunction case now pending in the superior court here against the railroad commission on account of circular 305, and popularly known as the stove rate circular. Since the issuance of circular 309, which gives Savannah rates that are generally regarded as fair, it is thought that there is no necessity for continuing the case. It will be decided definitely tomorrow what will be done.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

Georgia Peaches All Gathered.

Atlanta, July 27.—By the end of the week Georgia will have sent to the northern markets the whole of her peach crop, approximating 2,500 cars. This estimate of the size of the shipment is made at the Atlanta headquarters of the refrigerator car line, which serve his territory. In addition, there were shipped from the state between 350 and 400 cars of the luscious canteloupes which, these days, find as ready sale at the north as do the famous Elbertas themselves.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn., "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure for throat and lung troubles. At all drug stores; price 50c and $1, guaranteed. Trial bottle free.

Famous Divorce Case in Paris.

Paris, July 27.—The ehearing of the suit for divorce brought by Maude Gonne, known as the "Irish Joan of Arc," against Major McBride, formerly of the oBer army, was before the civil tribune of the Seine, Maitre Cruppe representing the wife of Maitre Labori, the husband. Maitre Cruppe severely denounced Major McBride's alleged unfaithfulness and denied the husband's charge that his wife was not of genuine Irish birth. The case attracts much attention owing to the prominence of the parties in connection with the Irish agitation.

Afraid Phipps Boys Will Leave.

London, July 27—The shooting case involving J. S. and J. C. Phipps, sons of Henry Phipps, of Pittsburg, Pa., was again mentioned in the house of commons this afternoon. J. Galloway-Weir representing Ross and Cromartie county, Scotland, wanting the lord advocate for Scotland to take steps to prevent the defendans from fleeing from justice. The lord advocate, however, said he had every reason to believe that the Phipps had been ready to meet any charges young men, he understood was now in Paris.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Bank Stockholders Assessed.

Akron, O., July 27.—The comptroller of the currency has orderer that the stockholders of the First National Bank of Barberton, which went into bankruptcy some time ago, be assessed $100 a share. The amount to be collected is $50,000, the capitalization. If 25 per cent is paid by Aug 10, the remainder can be paid in monthly intalments; otherwise, suit will be commenced.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

PREPARE FOR THE WORST.

While the authorities in New Orleans are doing all in their power to check the spread of yellow fever in that city, it may be some weeks before they can stop it, and it may linger along until after a frost.

The people of Florida will also take the necessary steps to keep it out of this state, and there is no cause for any undue alarm in the interior towns of the State. But it is a good idea to keep clean, and we hope the good work so well begun this summer by our Sanitary Officer Pinkoson will be kept up right along. It will certainly do no harm and may be the means of the city enjoying the healthy conditions it has so far this season.

The weeds should be cut down in different portions of the city and a close watch kept of the pools of stagnant water that may be found and have them filled up. The old adage about an ounce of prevention is a very good one to keep in mind.

The Sun's article on "Free Advertising" is being copied quite extensively in the papers of other States as well as in the local papers. But without action on the part of the press of the country it will avail nothing. The free "puff" in the paper is something like the free "pass" on the railroad. Many use the argument that a train is going to a certain place with fifty passengers and it would cost no more to the railroad to carry one more, which would be true. But if a number would ride on passes, the source of revenue would be cut off. The same may be said of a newspaper. The paper has got to be filled up with something and a "puff" would help although the publisher would not realize any of the needful for such space.

The law breakers in this State that are now causing the most trouble and expense, are the people who are trying to break the laws passed by the last Legislature. These laws are objectionable to them and they are determined to break them, no matter whether they suit the majority of the people or not.

The International Harvester Company has got business in Arkansas. The Attorney-General has filed an action against the company for $600,000, for alleged infringement of the anti-trust law. The complaints recite that the company is a monopoly.

Secretary of the Navy Bonaparte says there will be no whitewash and, so far as the service is concerned, he will make a scapegoat of no one, in his investigation of the cause of the Bennington disaster at Sandiego, Cal.

Admiral Rojestvensky is said to be slowly recovering at Tokio. He may recover by the time negotiations between Russia and Japan are completed, so he can be a peace offering of the Czar.

When Patrick, the New York lawyer, received the note at Sing Sing of the day of execution, he must have felt rather inclined to sing sing.

We acknowledge the receipt of a copy of the sixteenth annual report of the State Board of Health.

APPEAL TO FLORIDIANS.

The Florida Historical Society, which was organized November 26, 1903, has recently been incorporated under the laws of this State. Its objects are as follows: "The collection, arrangement and preservation of all material pertaining to the history of or in any manner illustrative of Florida, including books, pamphlets, documents, manuscripts, newspapers, diaries, notes, letters, speeches, maps, portraits, photographs or other likenesses of men and women prominent in Florida history, pictorial illustrations of Florida scenery, buildings, establishments, institutions, monuments, relics and products. Also relics of every kind whether historical or pre-historical, fossils, geological specimens and everything in any manner illustrative of Florida."

The provision for membership is "All Persons of Good Character" upon approval of the board of directors. The dues are five dollars per annum.

The Society has been given the use of a large and commodious room in the Jacksonville Public Library (which is fire-proof) for the reception and safekeeping of all its collections and property and in which to carry on its work which has now been actively entered upon.

The cost of furniture, cases, files, etc., together with the necessary clerical assistance, will approximate $1,000 for this year.

Failing to procure aid from the last Legislature, the Society must depend upon the dues of its members to meet its expenses.

Every intelligent person who has any State pride must realize and feel the value and far-reaching importance of the work in which the Society is engaged.

We appeal to all such for aid and encouragement. Send us your application for membership with a check for five dollars to Rev. V. W. Shields, Treasurer, for one year's dues. But whether you apply for membership or not send us books, pamphlets, papers, pictures, maps, relics, articles from Indian mounds, fossils, biographical or historical sketches and incidents and printed matter, historical or descriptive, having any bearing upon Florida.

Send to Florida Historical Society, Public Library, Jacksonville, Fla.

If the people of Florida will contribute what they reasonably can we will soon have a collection of priceless value.

THE FLORIDA HISTORICAL SOCIETY,
Geo. R. Fairbanks, President.
Geo. W. Wilson, Secretary.

DANIEL S. LAMONT.

Daniel S. Lamont is dead at the comparatively early age of fifty-four, having filled high offices in political and business life, says The Wall Street Journal, and, so far as we know, no living man can truthfully accuse him of unfaithfulness to trust in either capacity. Grover Cleveland's testimony to the worth of his deceased friend rings true and may be taken as final. Mr. Lamont was not a great man. If we were to seek for his most notable quality we should perhaps find it in discretion. He was eminently judicious in what he said and did. He made very few mistakes, either of word or deed.

In the life of Wall street, Daniel S. Lamont had one quality—a quality the more valuable because it is very rare. He never lied. He never deceived by indiscretion. He knew almost by instinct what the public wanted to know, and he was never afraid to tell it if it could be told without injustice.

Although he had passed out of the memory of many politicians, those who knew him when he was before the people will long remember him, and refer to his thorough business methods with pride when the names of far greater men are near the edge of oblivion.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHENEY & Co., Props.,

GREAT SNAKES.

The impression that all the snakes, alligators, insects and other pests are located in Florida is erroneous. Michigan can beat Florida for big ones and dangerous reptiles, as the following from The Caro (Mich.) Advertiser will show:

"While Mr. and Mrs. M. E. Rickert of Lapeer were fishing at Long Lake, and while the husband was fishing near the shore, the lady was rowing about near shore when suddenly a mammoth blue object at the side of the boat attracted her attention. She saw it was a snake of the Blue Racer variety and struck at it with an oar. The snake disappeared under water only to appear on the opposite side of the boat. She again struck it with the oar, and after being under water for some time it attacked the boat, this time succeeding in crawling part way in. Mrs. Rickert seized a small rifle which her husband brought with him, and shot the reptile through the neck.

"After getting Mr. Rickert, who had witnessed the struggle from shore, they rowed out and pulled the dead snake in the boat, and upon measuring it, found it to be over fifteen feet in length and sixteen and one-half inches in circumference."

Guess that Levy county snake will have to give the palm to Michigan.

It must have been amusing to see the Czar and Kaiser, as they met in the Gulf of Finland, peek under the boat to satisfy the Old Nick that there were no torpedo attachments.

Senator Mitchell of Oregon has been elected to another term. This time it is six months and $1,000, instead of six years at $8,000.

We suppose that if the government says John D. Rockefeller is a good man, Miss Ida Tarbell will be "agin the government."

The Quincy Herald and Era, under the management of Mr. J. H. Thompson, has improved in appearance.

Mayor McClellan of New York has the assurance that Tammany will stand by him for reelection this fall.

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you I am free from all that this morning. You can use this in behalf of suffering humanity."

PEONS OF OLD MEXICO.

Indian Farm Laborers That Are Really Beasts of Burden.

The Mexican peon is the backbone of the republic. Without him the great landed estates, or haciendas, would lie in idleness, while agricultural and commercial interests would stagnate. Of a cast iron constitution, he can endure, apparently without effort, the hardest sort of drudgery. His energy comes from a diet that consists chiefly of ground peppers, beans or frijoles and a large quantity of tortillas. He works from 6 to 6, enjoying in the meantime his two simple meals. In general, the Indian farm laborers are of a submissive and respectful disposition. Like the negroes of the south, they are not far from the main building, so as to be on hand whenever their services are required. They usually insist, however, on celebrating their holidays, which lessens their real usefulness about 25 per cent. The holidays are numerous and afford the laborer many opportunities to quaff from the stupefying pulque bowl. Their stock of surplus change is not apt to be excessive. It cannot be when most of them receive but little over 20 cents a day. Field hands in the states of Guanajuato, Michaocan and Queretaro receive a cuartillo of corn in addition to their wages of 12 cents a day. One hacendado who voluntarily raised the wages of his hands to 18 cents a day found himself without laborers for two days of the week. As the extra wages supplied living means for the entire week, what was the need of working?

These laborers are of all sizes and ages; but, whether young or old, all bear alike upon their brow the depressing and degrading leathern thong that makes of them beasts of burden. The effect of this customary strap on the shape of the head is seen in the fact that the peons the country over have peak shaped heads tending toward the shape of the pointed hat. The supply of laborers is, so to speak, perennial. The young muchacho receives his training in watching the sheep and the goats, acting as messenger or prodding the burros in the pack train. When he is about sixteen years old he takes his place with the regular laborers and begins to cast his eye about for a helpmate. The wife may prove useful and earn a small wage at some such operation as sowing seed. Her life will be a monotonous one. A strip of cloth serves as dress and skirt, a strip of leather provides a sandal, and in the hot regions the clothing for the boys is even as simple. All that is required is a jorongo, which consists of a yard of cotton cloth with a hole for the head and two depending flaps to cover breast and back. There is no possibility of their clothing impeding their movements. When the woman takes her husband's meal to him far out in the fields, she takes the little toddler with her fastened securely in her rebozo.—Pilgrim.

POINTED PARAGRAPHS.

Lots of men recede from ultimatums.

You might as well say a man steals as to say he is frightened.

Any quarrel is unpleasant, but a domestic difficulty is the worst.

Haven't you said a thousand times you wouldn't stand certain things and then stood them?

Some people complain because they can't get justice who should really be grateful because they don't get it.

It doesn't require as much patience to put a baby to sleep as it does to fish, but the men can't see it that way.

How often do you know you are right, and yet the man you are arguing with is convinced you are not! And he half convinces you that you are wrong.—Atchison Globe.

A Straight Tip.

A congressman was lunching alone in a Cincinnati cafe. Near by sat a dignified gentleman, who casually asked his waiter, "How is business?" The man said he was not doing well, upon which the dignified individual expressed regret, saying, "Personally I have always treated your craft in this house generously." The waiter was assiduous in his attentions and helped the guest on with his coat. The dignified man laid his hand on the waiter's arm and said: "Young man, you seem to be discontented with your lot, and I am going to give you the best tip you ever received. Get into some other business." And he strolled away, leaving the waiter speechless.

The Word "Gent."

At one time the word "gent" was a reputable term for general use. A respectable writer in 1564 tells of "a supper to divers gentlemen of the Gray's inne for the great amitie between them and the Middle Temple gents." The diarist Evelyn speaks of the "noise and tumult occasioned by three or four wild gents in drink." Soon after Queen Victoria's accession "gents" became vulgar. Thackeray speaks of it in 1862 as an "affectionate diminutive at present much in use among commercial persons."

It is not necessary to tell all we know, but it is necessary to know all we tell.—Rabbi Ley.

Japanese Painting.

The Japanese, with their natural, unsophisticated view of life, have ever sought in their art to mirror what a great painter and critic has termed "men's primordial predilections." Art, however, that seeks to embody pleasures founded on the unchanging properties of human nature must have a past as well as a future, must be able to look backward as well as forward. Not one's life labor, but that of many generations, is required. No people have better understood this than the Japanese. They have also clearly perceived that no art that is not true to the changeless element in man can endure, while, on the other hand, any subject, however trivial, can be made eternally attractive if only treated in accordance with aesthetic law.

Japanese painting delights us by its delicate fancy, its poetry, its freedom, its spirit, but what gives these qualities special and enduring charm, what makes the play of fancy never wearisome, the liberty never mere license, is that they find expression in and through a framework of design so finely conceived that in it we see reflected as in a mirror the fundamental principles which govern all true art.—W. M. Cabot in Atlantic.

Power of Fashion.

Though we can neither tell whence fashion comes, nor how, nor what it will do next, nor why it was yesterday one thing, today is something else and tomorrow will be different, nor why it always has been, is now and probably always will be obeyed, it moves steadily forward into that realm of common sense where beauty and utility blend in perfect harmony and ever keeps step with the progress of civilization and culture. No garment can please the man of refined and cultivated taste, however correct it may be in fit, however well it may be tailored or however excellent the materials may be of which it is made, unless it is fashionable, even though it violates no law of art and of itself is a thing of beauty, for without that indescribable something that only fashion can give it is like a flower without fragrance or a tune without music.—Sartorial Art Journal.

Two Tales of Macready.

It is not always well to strut and fret one's little hour upon the stage too realistically. Macready, who threw himself into his acting heart and soul, used to tell funny stories about the effect of his easy, colloquial manner upon the players collected for his company in small provincial towns. Once in the play of "William Tell" he turned to one of these stupid rustics and put the question, "Do you shoot?" so naturally that the man was quite thrown off his guard, and, to his horror, replied, "A little, sir, but I've never had a go with one of them crossbows." Another time in "Virginius" he asked, "Do you wait for me to lead Virginia in, or will you do so?" only to be greeted unexpectedly by the actor who played Icilius with, "Why, really, sir, I don't care; just as you do it in London."

Sennit.

In Polynesia and the Pacific islands generally the outer husk of the cocoa nut is braided into strands of uniform texture, known to the natives as sennit and used by them for a variety of purposes. The framework of their houses is held together by braided sennit, and the strakes of their boats are united by it. It is the staple from which string is made to bind the adze blade to its handle and to tie the different parts of their implements securely together. In short, whatever things are nailed or screwed or pegged or glued in other lands are tied together with sennit by the south sea islander.

Origin of the Derby.

The twelfth Earl of Derby is unknown to the reader of the ordinary history book. Lovers of art know him vaguely as the peer who married the pretty and popular actress Eliza Farren, whom the young Lawrence painted so brilliantly. But the earl yearly has his revenge when all the world and his wife flock to Epsom to see the race for the Derby stakes, for that race, in its institution in 1780, was named after the jovial young peer who was one of the leading patrons of the Georgian turf.—London Standard.

Butter in Slices.

From time immemorial in Cambridge, England, the dairymen roll the butter so as to form a long stick weighing a pound, which they sell in slices, as if it were sausage. In the market the butter merchants do not need to use either weights or scales. A simple glance is sufficient for these people accustomed to the time honored practice. A very neat cut with the knife divides the yard into halves, quarters or eighths very exactly, and it appears that the customer is never given short measure.

The Mortality List.

AN ORDINANCE.

An Ordinance to be Entitled "An Ordinance to Provide for An Election to Determine Whether or Not Bonds Shall be Issued for the Purpose of Securing Educational Advantages and Facilities in or Adjacent to Said City."

BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF GAINESVILLE, FLORIDA:

Section 1—The Mayor is hereby directed to issue his proclamation calling a special election to be held on the 8th day of August, 1905, to decide whether or not the issuance of the bonds provided for by this Ordinance shall be, at that time, approved by the registered voters of said city at such election.

Section 2—The Mayor and City Council of the City of Gainesville, in their corporate capacity, shall issue bonds of said city in denominations of One Thousand Dollars, and for the total amount towit: Fifty Thousand Dollars, and to become due and payable as follows, towit: Twenty Thousand Dollars in 10 years from date of issue, and Fifteen Thousand Dollars each succeeding 10 years thereafter until the full amount thereof shall have been paid, in regular numerical order. Said bonds to bear interest at the rate of five per cent per annum, payable semi-annually, and the interest and principal of said bonds shall be payable at the bank of H. F. Dutton & Company in said city; and such bonds shall have engraved interest coupons attached thereto, payable at the end of periods of six months from the date of the bond; said bonds shall be engraved under the direction of the Mayor and City Council of said city, and shall be executed by the Mayor and President of the City Council, and shall bear the corporate seal of said city. Said bonds shall be sold at not less than par and delivered in amounts as the proceeds are needed to pay for the purposes hereinafter provided for.

Section 3—The purpose to which the proceeds of the bonds provided for in the preceding section are to be applied are the following, viz: To acquire, build or purchase a building or buildings for school purposes or otherwise secure educational advantages and facilities in or adjacent to said city.

Section 4—That this Ordinance shall be published in full in a newspaper published in said city for thirty days after its passage and approval, and along with the publication of this Ordinance there shall be published therewith, at the same time, in the same newspaper and for a period of thirty days, the Mayor's proclamation calling the special election provided for in section one of this Ordinance.

Section 5—The ballots to be used at said election shall have printed thereon the words, "For Educational Bonds," and, "Against Educational Bonds." Such election shall be called and held and the returns thereof shall be canvassed as other city elections are usually called, held and the returns thereof canvassed. If the majority of the votes cast at said election shall be "For Educational Bonds," then such bonds shall be issued in compliance with the terms and provisions of this Ordinance; if the majority of the votes cast at such election shall be "Against Educational Bonds," then no such bonds shall be issued.

Passed City Council July 3, 1905.
G. K. BROOME,
President City Council.
Approved by me this 3rd July, 1905.
W. R. THOMAS, Mayor.

Notice of Election.

Under and by virtue of the power and authority vested in me, I, W. R. Thomas, as Mayor of the City of Gainesville, Florida, do hereby call a special election to be held in said City of Gainesville, on the 8th day of August, A. D. 1905, for the purpose of deciding whether or not the issuance of the bonds provided for by the Ordinance published herewith shall be at that time approved by the registered voters of said city at such election.

The polling place for said election shall be in the rear of the Municipal Building on East Main and Masonic streets.

The polls shall open at 8 o'clock a. m. and close at sundown of said day.

W. L. Hill, W. S. McDowell and D. A. Robertson are hereby appointed inspectors, and F. X. Miller clerk, of said election.

Witness my hand and the seal of said City of Gainesville, Florida, this 3rd day of July, 1905.
(SEAL) W. R. THOMAS, Mayor.
Attest: J. M. DELL, City Clerk.

NOTICE.

Notice is hereby given that after this notice has been published according to law, for six months, I will present my accounts to Hon. H. G. Mason, county judge of Alachua county, Florida, and ask that my accounts be approved and ask for final discharge.

...ARING ROBBERIES OF JEWELRY.

...,000 Worth of Valuable Gems Are Taken from Country Homes.

New York, July 27.—A daring burglary was brought to light Tuesday when circulars describing $15,000 worth of stolen jewelry were sent out to all the pawn brokers in New York. A wealthy New York business man who has a country home in Connecticut and who sailed for Europe with his family last week, is said to have been the victim.

The Connecticut police have been unable to get a trace of the burglars or their plunder and lists of the missing property have been scattered all throughout the United States, with offers of a liberal reward. The most highly valued article stolen was a necklace of turquoises, which had been a family heirloom and which was also of great intrinsic value.

Another circular sent out by a detective agency makes public another robbery amounting to $25,000 which is a curious coincidence, occurring in a New York residence on the same day that the robbery was committeed in Connecticut. The name of the loser has been withheld. Included in the loot was a necklace of 81 pearls with a cross suspended from it made of 11 pearls. Another necklace was taken which was very valuable.

SANFORD MAKES STATEMENT.

Gives His Reason for Killing Wright in Rome, Ga.

Rome, Ga., July 27—Vincent T. Sanford, former tax collecter of Floyd county, who shot and killed George Wright, city ticket agent of the Southern railway in this city, gave the first statement of his side of the killing Tuesday afternoon.

Up to this time Mr. Sanford has positively declined to make any statement but ow that his statement has come, it proves to be sensaional in the extreme.

His statement is to the effect that there was an undue intimacy between his wife and the man he killed. Sanford says he has positive proof and asks the public to withhold judgment until his trial.

The trial of this case has been set for Tuesday next, Aug. 1. Sentiment is divided, both sides having strong partisans and adherents. Mrs. Sanford's friends are staunch in their belief of her innocence. Others have a contrary opinion. Public sentiment is disposed to await a showdown.

Senator Faces Bribery Charge.

Little Rock, Ark., July 27.—State Senator F. O. Butt was arrested at Berryville on a bench warrant from Little Rock, charging him with bribery in conection with the bill appropriating $800,000 for the completion of the new state capitol. The indictment alleges that Senator Butt paid $100 and promised $400 more to Senator R. R. Adams, of Grant county, for the latter's vote in favor of the bill. Senator Butt gave bond in the sum of $5,000 for his appearance at the September term of the Pulaski county circuit court in answer to the charge.

Will Swim English Chanel.

Dover, England, July 27.—Edward Heaton, of Liverpool, started from here today in an attempt to swim the channel, his intention being to land near Calais. The conditions were favorable to the accomplishment of his task. No less than nine aspirants are now in training for channel swim honors, including Miss Annette Kellerman, an Australian, who expects to make the attempt in the future.

COTTON MILLS SOLD AT AUCTION

Properties of Southern Textile Company Are Disposed of.

New York, July 27.—Properties of the Southern Textile company, organized two years ago, with a capital stock of $14,000,000 as a holding company to combine cotton goods mills in the south, were sold at auction to by order of Walter C. Abell, trustee in bankruptcy.

The Windsor mill at Burlington, N. C., sold for $25,000 to Robert L. Holt; the Chicora mills, at Rock Hill, S. C., for $34,000 to N. M. Smith, and the Moorhead mills for $36,000 to Mr. Holt.

The auctioneer then put up all the property in one lot and sold it for $110,500 to The International Trust company, of Baltimore. As the bulk sale realized $15,500 more than the separate lot sale, the bulk sale was accepted by the trustee and will be submitted to the United States district court for confirmation.

Negro Murderer Surrounded.

New York, July 27.—After having for two days dodged the bullets of detectives and farmers, Charles Long, a giant negro who is charged with having killed Matthew Cunningham, in Trenton, through jealous love of a woman, has been run to earth last night in a swamp near Newmarket. Though they had their prey surrounded, none of the pursuers had the temerity during the night to risk a hand to hand encounter with the negro in the darkness or the possibility of being mired in a quicksand. Even if the police and farmers remai satisfied today only to guard against the escape of the negro from the swamp which is about a mile in circumference, he must surrender or starve.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

New President for Railroad.

Cincinnati, July 27.—Within 10 days there will be a change in the presidency of the Chicago, Cincinnati and Louisville railroad, Eugene Zimmerman succeeding W. A. Bradford. The transfer of the stock is now being made and a financial settlement will be had with Mr. Bradford as soon as that gentleman returns from a pleasure trip. When this is done, Mr. Zimmerman will succeed Mr. Bradford as president of the company. This will be the last detail to be worked out in the consolidation of the three roads forming the Great Central, the Cincinnati, Hamilton and Dayton, the Perre Marquette, and the Chicago, Cincinnati and Louisville.

Accidentally Kills Baby Brother.

Logansville, Ga., July 27.—With the belief that the gun was unloaded, and in a spirit of playfulness, Homer Sword, aged 10 years, shot and killed his six months old baby brother at the home of his father, L. F. B. Sword, one mile from this place. The gun by which the six months old child met death had not been loaded for years. While Homer was at school his father placed shells in the gun. Upon returning home, and while his parents were out of the house, Homer playfully pointed the gun at his baby brother, who was lying in bed, and pulled the trigger.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

A carload of brick has been received from Georgia for the new Episcopal church, which means that the brick work will be continued at once. There has been a delay on account of material, but the contractors promise a rush of the work in future, and the building, which will be one of the finest of the kind in the State, will be finished in a few weeks.

The Sun received a friendly call last evening from that jolly good fellow, Harry Burhans of The Jacksonville Metropolis, who will be the city today in the interest of his paper. Harry is a hustler when it comes to building up his subscription list, and that there will be something doing when he gets out among the reading public of the University City, needs not the telling.

F. B. Hester, agent of the A. C. L. at Evinston and an all-round good citizen, was among the visitors to this city yesterday. Mr. Hester states that the fruit and vegetable movements are all over now from his section. They were heavy, however, and the growers as a rule have no "kick" to make on the returns of the greater part of the shipments. The crop prospects are good and the chances are the farmers will harvest well the coming fall.

Ollie Jacobie, for the past few months shipping clerk in the employ of the Baird Hardware Company, left yesterday for Tallahassee, where he went to accept a responsible position of special clerk in the office of Commissioner of Agriculture McLin. Mr. Jacobie's thorough qualifications and familiarity in land matters, together with a strong recommendation from Perry M. Colson of this city, secured for him the position which he will no doubt hold with ease and credit, and his numerous friends in Levy county, his old home, and Gainesville, congratulate him.

Charles Storme of Blackwell, S. C., who has been in the city for the past two days looking after some property interests, left yesterday for Micanopy, where he was called for the same purpose. While here Mr. Storme expressed himself as being well pleased with Gainesville. He stated that he had heard this city favorably spoken of many times, but had no idea of the thrift and energy apparently in evidence. He took particular pains to compliment the city on its beautiful shade trees and broad streets, which he declared was a blessing to any town, and incidentally complimented the people of Gainesville on securing the University of Florida. "From general appearances it appears to me that you deserved the University, for Gainesville is an ideal place and you are
